KEYMACRO allows you to manage your keystrokes, key combinations and windows (as well as create, delete or edit existing macro combinations). With the help of this utility, it is possible to launch several programs and open numerous folders at once. Keystrokes This useful utility allows you to capture the keystrokes performed on the computer or on the application you are using (e.g. to select text, activate menu items, add special characters to the document, etc.). Key combinations With the help of this useful utility, you can assign key combinations to your keyboard, so you do not need to use a mouse to click the mouse-clicker button. Windows With the help of this utility, you can create, delete or edit your windows, thus allowing you to run several programs at the same time. Keyboard layouts With the help of this utility, you can configure the computer's keyboard settings (such as the number of keyboard keys, shortcuts and the language), and change the keyboard layout, thus allowing you to work comfortably in more than one language. Clear-cut UI When we installed the utility we were not impressed by its rather excessive interface. However, this quickly changed when we began to use it. With the help of this utility, you can easily perform the most essential tasks on the computer, without having to open several folders at the same time. We should mention that the setting panel has two parts – the left side displays all installed macros and the right side features a large and detailed description for every macro. Incorporated syntax highlighting for many languages Using this useful utility allows you to save your text to the hard drive as TXT files. This is a useful feature as it allows you to create personal documents (e.g. with a memo pad, text editor, or any other file format you like), and as a result you do not have to manually open them from a folder. Customize the tool's appearance and change character encoding The settings allow you to adjust your interface's window color, opacity and language. Moreover, you can enable code folding and word wrapping, change the language and the encoding. CONCLUSION and PERFORMANCE: This utility performs its tasks without putting a strain on the system, while at the same time making your work a lot easier. A group of leaders of the Eastern Committee of the Fedayeen (Revolutionary Guards) announced that they will arrest and execute the commanders of the Takfiri terrorists in the region, especially the leaders of Daesh and the Islamic State (IS). The statement issued by the leaders said that the group is ready to help the international coalition in its efforts to wipe out the Takfiri terrorists and establish a safe zone in the liberated territories. "For this reason, we will arrest and execute the commanders of Daesh and the Islamic State (IS) and those who are involved in their crimes and their crimes are political crimes which have nothing to do with religion. Moreover, we will arrest and execute those who support Daesh and IS," the statement said. It added that all the crimes committed by Takfiri terrorists are political crimes which have nothing to do with religion. Earlier, another group of the Fedayeen said that the prisoners held by the Takfiri terrorists should be freed or exchanged for the captives of the international coalition forces. The news comes as government forces capture the strategic Al-Aqil Mountain area in eastern Mosul. Moreover, the Iraqi Army, Popular Mobilization Units (PMU) and the National Security Forces (NSF) are pushing
